Index to Volume 75

A.c.; Investigating an electrical source (270) 106
Accelerating a car (270)140, (272) 125
Administratium; New element discovered (270) 137
Advance organizer; Sc 3 in the secondary school (270) 125
Analysis, A quantitative method of (273) 77
Animal conservation, Children's ideas about (271) 51
Aquaria, School, Straw as an algicide in (272) 63
Aspirin, From oil of wintergreen to (272) 65
Assessment in the GCSE (270) 7, (271) 67 (272) 75
Assessment; Analysis of practical examination results (271) 127
Astronomy within KS3 and KS4 (271) 7, (272) 51

Ball, Kicked, Factors affecting speed of (271) 103
Bathonian, Hunting dinosaurs in the (272) 35
Bicycle, The backward (270) 139
Biotechnology (271) 94
Birth date, Effect of on performance (270) 133
Brakes, Simulating in the school laboratory (272) 81
Breakers, Circuit (271) 61
Bubbles, Measurement of pressure variations in (270) 65

Calorimetry, Experimental (270) 85
Cannabis, Dangers of (273) 122
Car, Accelerating a (272) 125
Car brakes, Simulating (272) 81
Carbon. The fullerenes (270) 55
Carbon dioxide and the greenhouse effect (273) 130
Centripetal force (270) 101
Chaos in the classroom (272) 83
Chaotic computing (271) 131
Charges of atoms in groups, molecules and ions (273) 80
Chemistry. Sc 3 in the secondary school (270) 125
Chemistry, Language matters in (273) 125
Chirality, A simple model of (271) 101
Choice by students choose for or against science (270) 112
Chromatography, Thin-layer, Separation of leaf pigments using (273) 69
Churches and Sc3 (272) 43
Circuit breakers (271) 61
Classroom environment (272) 107
Coffee mug universe (271) 102
Computer-based investigation of domestic insulation (272) 86
Computers and practical science (271) 75
Computing, Chaotic (271) 131
Computing workshop (272) 93
Concept hierarchies in chemical equations (272) 97
Conducting polypyrrole, Synthesis of (270) 80
Conduction in solids (273) 95
Conservation, Animal (271) 51
Context -based science in action (272) 7

Datalogging (271) 75
Differentiated tasks at A-Level (270) 118
Digestion (272) 62
Dinosaurs, Hunting, in the Bathonian (272) 35
Diversity, Biological (273) 29
Doppler radar (273) 85
Drugs; Dangers of cannabis use (273) 122

Earth science in KS3 and KS4 (272) 51
Earth science, Problems with teaching (273) 131
Ecology, Teaching of (272) 15
Elasticity; Hooke's Law (271) 112
Electrical equipment, Screening of (273) 93
Electricity, Investigating a source (270) 106
Electrolysis cell (270) 84
Electromagnetism. A swinging wire (271) 113
Energy of a jumping toy (270) 100
Energy in food and fuels (271) 39
English, Plain? (271) 134
English, Linguistic features of scientific (273) 101
Enthalpy and elementary reactions (270) 82
Environment, Classroom (272) 107
Equations, Balancing of chemical (272) 97
Equilibria, Chemical, Spreadsheets in (272) 68
Equilibrium constant (270) 82
Ethical issues in school science (272) 117
Evaluation. Context and activity-based science (272) 7
Exhibition. 'The New Age' (272) 122
Explaining. Pupils' understanding of science (271) 19
Eye, A model (270) 94

Fair, A school science (273) 41
Fermentation technology (271) 94
Fieldwork (272) 113
Finches, Food selection by (273) 72
Flame probe (271) 114
Floating (271) 134
Force. To verify F=ma (273) 90
Frequency of vibration of a stretched wire (271) 109
Fruit fly, Mutant genes in (270) 37
Fullerenes (270) 55

Game. Diary of a microbe (272) 61
Gases. Plastic bottles as aspirators (270) 79
Genetics in the fruit fly (270) 37
Genetics. New pea genes for the classroom (271) 87
Germination and growth of cress seeds (271) 90
Girls visiting a computing workshop (272) 93
Global warming (272) 77
Green power station? (270) 17
Greenhouse effect (272) 77 (273) 130

Haloes caused by ice crystals (272) 89
History of physics (271) 123
Hooke's Law (271) 112
Hydrogen bonding (272) 124

Incidence, Angle of (272) 123
Insulation, Domestic (272) 86
Interfacing a spirometer (270) 77
Investigation. Food selection by finches (273) 72
Investigations in the laboratory (271) 31

Investigations, A day focusing on (272) 119
Ionic charges (273) 80
Ionizer potentials (271) 106
IT in practical science (273) 21

Jet-boat, A model (270) 103
Jumping toy, Energy of (270) 100

Kinetics in action (273) 103

Language in science (272) 103
Language matters in chemistry (273) 125
Lateral inversion (273) 130
Leaves, Model, Water loss from (272) 61
Lego bricks for teaching ecology (272) 15
Light. The scientific model of vision (273) 116
Light bulb, Temperature of (273) 86
Linguistic features of scientific English (273) 101
Loudspeaker, Oscillating speaker cones in (273) 85

Magnetism, Separating pennies using (271) 110
Magnetization and polar liquids (272) 88
Marine pollution (270) 73
Materials, Properties and uses of (272) 43
Medicinal chemistry (273) 49
Microbe, Diary of a (272) 61
Mirror images (273) 130
Mirrors, Observations with (270) 96
Mobile for teaching the reactivity series (273) 75
Modelling magnetization and polar liquids (272) 88
Modulation, A circuit to demonstrate (273) 97
Motion sensing device (270) 103
Museum. 'Empires of physics' exhibition (270) 135

National Curriculum for science, Primary teacher responses to (273) 106
Nebulizer investigation for Year 12 students (273) 77
Newton laws (273) 90
Newton's rings (273) 15
Nutrients (272) 62

Opamp (271) 108
Open-ended work in science (OPENS) project (271) 31
Optics in the pinhole camera (273) 59
Oscillating speaker cones (273) 85
Oscillator, Low-frequency (270) 89

Particles. Kinetics in action (273) 103
Pea genes for the classroom (271) 87
pH changes (271) 100
Photoelectric effect (271) 111
Physics, History of (271) 123
Pigments, Extraction of, using thin layer chromatography (273) 69
Pinhole camera (273) 59
Planck's Constant (271) 104, 111 (273) 129
Plate tectonic model (271) 93
Pneumonia (271) 133
Pollution, Marine (270) 73
Pollution, Effect of, on germination and growth (271) 90
Polymers, Synthesis of (270) 80
Potential, Exploring, Using a flame probe (271) 114
Power station (270) 17
Practical science, The use of IT in (273) 21
Practical assessment in the GCSE (270) 7 (271) 67
Practical work, Alternatives to (271) 117
Presidential address (273) 7
Pressure, Measurement of in the study of soap bubbles (270) 65
Primary teacher responses to the National Curriculum for science (273) 106
Profile, Science. An activity for science teachers (270) 109
Projectiles, Motion of (272) 27
Pulse code modulation (273) 97

Radar, Doppler (273) 85
Radioactive decay (270) 140
Radioactivity. The use of ionizing radiations and radioactive sources (270) 142
Radioastronomy and its application in a school environment (270) 25
Reactivity series (273) 75
Redox reactions (273) 76
Reflection (270) 137 (272) 123
Refraction (270) 137 (272) 89
Reichardt's dye (272) 67
Relativity by numbers (270) 47
Resistance (272) 126
Resonance apparatus (270) 89
Rings, Newton's (273) 15

Sc1, Fieldwork studies in (272) 113
Science, Students reasons for choosing for or against (270) 112
Science, Reasoning in (272) 103
Science fair, A school (273) 41
Screening of electrical equipment (273) 93
Sell-by dates on cans (273) 123
Social awareness and scientific issues (273) 29
Soils, Structure of (273) 82
Soldering stand, A (273) 93
Solids, Conduction in (273) 95
Solvent polarity and Reichardt's dye (272) 67
Special schools, Science in (270) 120
Speed of a kicked ball (271) 103
Spherometer (273) 88
Spiromenter (270) 77
Spreadsheets in chemical equilibria (272) 68
Stereoisomerism (271) 101
Stevenson (272) 124
Stock control (270) 141
Storage. Plastic bottles as aspirators (270) 79
Straw as a potential algicide in school aquaria (272) 63

Tectonic, Plate, model (271) 93
Temperature of a light bulb (273) 86
Tetrahedral angle (272) 124
Time, The fascination of (272) 118
Titration. Graphing pH changes (271) 100
Treasure Hunt project (270) 120
Twister (272) 89

Understanding of science (271) 19

VELA. Use of to study the vibration of a stretched wire (271) 109
Venn diagrams (272) 71
Viscosity (272) 84

Water loss from model leaves (272) 61
Whaling (270) 131
Windmill, Paper (270) 94
Wintergreen, Oil of, to aspirin (272) 65

INDEX TO AUTHORS

Adey, P (271) 134
